SUMMARY

Dynamic Front-End Developer with over 7 years of experience in building modern web applications using React and TypeScript. Proven ability to redesign interfaces and enhance user experiences for various industries, including sports marketing and education. Successfully improved code maintainability, leading to enhanced application stability. Unique expertise in full software development lifecycle and performance optimization equips to deliver impactful solutions that align with the company's goals.

WORK EXPERIENCE

10/2024 - 12/2025 **Frontend Developer, Heyra: Playmaker** **remote, Lithuania**

- Engineered a modern, scalable web platform utilizing Nx monorepo architecture to manage sports marketing assets and campaigns, incorporating technologies such as React, TypeScript, Zustand, Vite, Lerna, Mantine UI, React Query, TanStack Router, and react-intl, while leveraging tools like GitHub, Docker, and Storybook.

12/2021 – 11/2024 **Frontend React Developer, Telesens** **remote, Ukraine**

- Spearheaded the redesign of an admin panel for a tool for game testers in Estonia, introducing enhanced functionality, comprehensive state management, and improved metrics visualization with tables and charts.
- Diagnosed and resolved critical bugs, optimizing the codebase for better maintainability, and contributing to a more stable and scalable application. Collaborated closely with product design and development teams to craft an intuitive and visually appealing user experience.
- Developed and implemented front-end architecture for a real estate agency project in Monaco, France, aligning the user interface concept with business requirements.
- Contributed to the development of an educational system for schools in the USA, implementing solutions to enhance data structure, and actively participated in the complete software development lifecycle, including design, development, and deployment phases.

01/2021 – 12/2021 **Frontend React Developer, 7Devs** **Kharkiv, Ukraine**

- Formulated a single-page application (SPA) for viewing and managing router operations in the USA, authoring application interface code using TypeScript and adhering to React.js Redux workflows.

05/2020 – 01/2021 **Fullstack Developer, MeGaDev** **Kharkiv, Ukraine**

- Developed SPAs, mobile applications, and landing pages, integrating Google Maps, designing custom chat features, and dynamic tables, resulting in responsive and user-friendly web applications utilizing JS frameworks while following design specifications and user requirements.

07/2019 – 04/2020 **Fullstack Developer, NearShorePartner.ch** **Kharkiv, Ukraine**

- Redesigned the web version of cloud storage on CMS Drupal, integrating React components to enhance functionality and user experience.
-

EDUCATION

2011 – 2016 **Kharkiv National University of Radio Electronics** **Kharkiv, Ukraine**
information security in computer networks

SKILLS

TypeScript	JavaScript	Web, Mobile First
React.js	Redux	Next.js
HTML	CSS	Node.js
Zustand	REST API	MobX
AJAX	JSON	WebSocket
Scalable Architecture	Git	npm, vite
Process Flows	Scrum	Nexus
TanStack Query	Tailwind	SCSS

LANGUAGES English - intermediate (B1–B2)

Ukrainian, Russian - native
